

7th Annual SEA-PHAGES Symposium
June 12 – 14, 2015
Poster Judging Instructions

Thank you for serving as a poster judge at this year's Annual Symposium. You will have up to 3 posters to judge in one session and you will only judge during one poster session. Judging assignment and a Judges' ribbon can be picked up at the Judges Information Table in the Gallery. Please wear your Judge's ribbon only while actively judging posters. Hopefully, this will alert others (presenters and interested phage researchers) to give judges priority.

If you have a conflict of interest with any poster assigned to you, please see Debbie ASAP.

A brief orientation for poster judges is scheduled for Saturday at 8:00 AM in the Servery.

There are six categories for judges to assess:

1. Hypothesis/Statement of Problem
2. Materials & Methods
3. Results & Figures
4. Conclusion, Discussion and Future Work
5. Presentation
6. Poster Presentation

Please circle the score for each category and write the score value in the last column. Each category is evaluated on a 5-point scale, with 1 being poorest and 5 being best. Note that the five categories are scored on the same scale, but categories #4 (Conclusion, Discussion and Future Work) and #5 (Presentation) are given double weighting (double the score value in the final column).

Please total the scores for each sheet, and choose one poster (if appropriate) as your Judge's Pick! Upon completion of each score sheet, please deposit it in the Score Box located at the Judges Information Table in the Gallery. All score sheets must be submitted no later than 6:00PM on Saturday evening.
