Annotation Office Hours

SEA-PHAGES is excited to announce its Spring 2026 annotation office hours. Bring your questions and challenging gene calls. All questions are welcome!

PECAAN

At the [January Virtual Faculty](#) meeting, SEA announced that all annotations must be in PECAAN for Spring 2026. Faculty in need of a PECAAN account should email: info@seaphages.org

Annotation Cover Letter

The annotation cover sheet has been updated to reflect submission changes for Spring 2026. Please download it ([Phage Genomics Guide, Section 11.1](#)) and document challenging calls while annotating.

Cluster-specific Annotation Tips

[Cluster-specific annotation tips](#) are a curated collection of unique features indicated for a cluster/subcluster. Be sure to review the tips for your phages' cluster before submitting your final annotation.

Cluster Reports and Forums

The Cluster Reports published in [QUBES](#) are a great resource for comparative genomics.

Official Function List and Forums

The [Official Function List](#) contains additional information in 2026. Look for category names to provide biological context to functional calls as well as updated notes, reference genes, publications, and case studies. Use the search bar in the forums to quickly identify information that may help your investigation.

Author List

Please follow the guidelines in the [Phage Genomics Guide, Section 11.1](#), when creating your author list.

Remove any headings you may have created, such as Last Name, First Name, and Middle Initial. Remember to include faculty names, if desired.

Final Annotation

All genes should have a green check mark in the final annotation in PECAAN. Please remember to lock your genome and download a PECAAN Export File (.pef) for submission. See the [January Spring Office Hour](#) for more details.
