

## Peer Reviewer

### Overview

The SEA community disseminates its scientific discoveries through many avenues, including publications as peer-reviewed articles in science journals. These publications are not only valuable ways to communicate our science to the broader community but are also important mechanisms for teaching students about scientific communication and gaining external recognition for your collective scientific contributions.

To facilitate this process of publishing, and to ensure consistency of both data and their interpretations across the SEA program, we encourage all SEA faculty to always submit their manuscripts to the SEA Team for feedback. As more and more faculty prepare manuscripts for publication, we welcome your support as a SEA peer-reviewer.

### Genome Announcement Reviewers

At present, the SEA Team is seeking peer-reviewers of genome announcement:

### Eligibility

All SEA faculty who have completed at least 2 years of instructing the SEA research projects are eligible to apply. We are looking for a team of ~5 reviewers to serve for a 2-year tenure on a rotating basis. Each reviewer will commit to reviewing 10 genome announcements per calendar year. New reviewers will be provided guidance from the SEA team on how to review and provide feedback.

### Compensation

In recognition of their contribution to the SEA community, HHMI will reimburse each reviewer the cost of publishing a genome announcement (~\$1000) with their students, per year of service.

### To Apply

Please complete the brief application form. If you have any questions about the position or how to apply, please contact Vic Sivanathan at [SEA@hhmi.org](mailto:SEA@hhmi.org)

**Peer Reviewer**

**Name:**

**Institution:**

**If you have co-authored a publication describing your SEA research, please list them below.**

**Please list any other scientific publications you have co-authored.**

**If you have served as a peer-reviewer for a science journal, please list the journals below and provide a brief description of the number and types of manuscripts you have previously reviewed.**

**Please briefly share why you would be interested in serving as a peer-reviewer with SEA.**
